- 4. Competitor Obligations** – A participant must take whatever steps requested by Dirtplex officials, including tear down of the vehicle to facilitate inspection. This may include but is not limited to installing inspection holes, inspection ports, and any other means of inspection deemed necessary. Any inspection that requires tear down or dismantling of any assembly to inspect components is the sole financial responsibility of the competitor and or team. Dirtplex is not in any way financially responsible for any tear down or disassembly or reassembly of components to ensure rules compliance. In passing a vehicle through technical inspection, Dirtplex does not warrant that vehicle's adherence to all rules. The participant is responsible for ensuring his/her vehicle is in compliance with all Dirtplex rules at every event.
- 5. Pre-Practice/Race Inspection** – All vehicles must pass a technical inspection before entering the race track, including for practice.
- 6.** If a vehicle does not pass this inspection, it will not be allowed to compete unless, in the opinion of the Dirtplex official, the deficiency: will not adversely affect the race, cannot be corrected in time for qualifying for the race or it is insubstantial and does not warrant disqualification from the race.
- 7.** If technical inspection is passed but a deficiency is noted on the inspection sheet, it must be corrected by the date and time specified or a penalty may be imposed.

- 17.**When a race is halted prior to the completion of one lap, there shall be a complete restart in the original starting position.
- 18.**When a race is halted after the completion of one lap, vehicles will line up in the order in which they were running at the completion of the last full lap before the halt.

- 1.** DROP ROUND: Each competitor will have a “drop” race, A drop consists of the racer dropping their lowest event finish (points) during the season to reach your final point total calculated for the Championship. Additionally, a racer may use his/her “drop race” for a series event that they are unable to attend, due to an injury, hardship, or other special circumstance. However, the Season Bonus Points would not apply.
- 2.** Disqualifications/Suspensions are not droppable.
- 3.** Please note: you may NOT drop the final race of the year.
- 4.** Season Bonus Points: +10 points There are bonus points (+10) available for drivers who attend every race of the season. In the case that a driver signs up

for a class at an event but has a DNS in both races, they will not earn points for that particular event but they will still be eligible for the bonus points for attending all races, as long as they started at least 1 race or practice session at the event. This is to make sure drivers who had to leave due to a mechanical problem in practice or an injury are still awarded for attending the event, even though they were unable to race. Drivers who fall into this situation must contact the race director to inform them of the situation as soon as possible so their attendance can be verified.

5. The race officially ends for all competitors at the completion of the final lap in which the checkered flag is displayed. Once the checkered flag is out, racers will be scored in order of their finish and number of laps completed. It is not necessary to complete all laps in order to receive a score.
6. Towing is not allowed. Any disabled UTV/SXS that are towed back to the pit area by staff or otherwise, are not eligible to return to competition in that race. If a UTV/SXS is towed a short distance in order to dislodge the UTV/SXS from a track obstacle. i.e.; mud, deep rut, etc., it may return to competition of that race. All participants assume full responsibility for any and all injuries sustained, including any property damage or damage to a race vehicle as a result of being towed to or from the racing areas by Dirtplex staff or otherwise.
7. In the case of a tie for any position in year end points, the tie will be broken by using the greatest number of first place finishes. If a tie still exists, seconds, thirds, etc. will be considered until the tie is broken. If a tie still exists, the driver establishing the first victory of the season will prevail.
8. The overall points championship is not official until after the last race of the season.
9. Awards are presented to the top 3 finishers of each class.
10. Pay outs are subject to change upon the number of entries
11. Eligibility to participate in the points fund may be forfeited by any member violating rules or regulations prior to the presentation of the awards.

TIMING & SCORING

1. Official Scoring – All decisions of the designated Dirtplex official scorer for an event are final unless a recheck has been requested by a driver or a Dirtplex

official. All teams are required to purchase or rent remote timing transponders. Transponders can only be purchased/rented through Dirtplex or Mylaps and numbers must be recorded with Dirtplex officials.

2. Drivers are responsible for the charging and installation of all transponders. Any entry without a properly charged, properly installed, functioning transponder may not be scored and may be subject to further penalty.
3. Transponders must be mounted as specified.
4. ALL RENTED Transponders must be returned at the end of each main event. Failure to return a rented transponder will result in a charge of up to the full purchase amount due.
5. Practice: Practice is timed for the sole purpose of racers getting to see their lap times. Practice times (both total time and individual lap times) have no bearing on either race (Race 1 or Race 2).
6. Qualifying: Qualifying is timed practice for the sole purpose of racers to determine their starting line up order for Race 1.

RACE FORMAT

1. All classes will run a 2-race format, with a RACE 1 and a RACE 2, with a timed number of laps plus 1 lap, with finishing position in RACE 1 determining your starting position for RACE 2.
2. Lap times will be pre-determined at each event based on the overall length of the track layout.
3. The combined overall points from RACE 1 and RACE 2 finish will determine the overall score. The overall score will count toward your year end point standings. Both races (RACE 1 & RACE 2) are assigned points, and it's the overall combined score from BOTH races, that determines overall score. All drivers who take the checkered flag UNDER POWER (no pushing across) will receive a score, regardless of the number of laps they have completed.

4. Driver's which complete over 50% of the required time per race but are unable to take the checkered flag UNDER POWER will also receive a finish position.
5. Racing takes place over 2 races. Both races count towards your overall event finishing position, but the second race is most important based on how points are awarded. Race points are earned based on your finishing position in each race. The lowest combined points score between race 1 and race 2 determine the overall finishing order for the event. Season points are awarded on the overall finishing order for the event, not per individual race. Note: It is important to understand the difference between race points and season points. Race points are what you earn in each individual race. The sum of your race points sets the overall finishing order for the event.
6. The end of season points results will determine your overall points position.
7. DNF/DNS Definition and Scoring: Any racer who crosses the line and gets the checkered flag is considered a finisher, even if they are down 1 or more laps.
8. A racer who fails to get the checkered flag will be marked as DNF (did not finish). A racer who did not start the race is marked DNS (did not start). A start is considered anyone who takes off from the starting line under their cars own power, even if they only make it 1 foot past the line.
9. A racer must cross the finish line with a checkered flag to be deemed points for that race.
10. Each race is scored separately (ex, if you DNS or DNF Race 1 you can still participate in Race 2).
11. ALL racers must be lined up at the start when the race is starting, if failure to do the racer must start last for the race.
12. Each race will start in grid staggered start
13. Grid order will be based on qualify time for Race 1, Race 2 will be in order of Race 1 results.
14. Each race day will be scored separately
15. Overall race points will be determined by each race day
16. Season points are based off each event(day) race.

RACE/TECH PROTEST

1. The Dirtplex Race Director, with or without protest, has the right to penalize, fine, disqualify, and/or suspend any vehicle or entrant for violation of any rules or regulations.
2. The right to protest shall rest only with any competitor taking part in the competition in question. This competitor may protest anything which is considered a violation of these rules.

4. A competitor is only allowed to protest one(1) competitor that finished one(1) position ahead of them. Example, 7th place cannot protest 1st place.
5. The race official shall determine whether the matter is a viable protest, and if so, shall decide the protest as promptly as possible and shall inform the parties to the protest of the decision. In deciding the protest, the Race Director may take whatever action deemed appropriate to further the interest of fairness. Such action includes, but is not limited to, revising official race results, imposing penalties, adjusting points, or taking no action.
6. Any entrant who has an official protest lodged against his/her race vehicle must submit to an inspection of the protested items. Failure to submit to inspection will result in automatic disqualification/suspension/loss of points. Those attending the inspection(s) will be as follows: the protester or their designated representative, the protested competitor or their designated representative, Dirtplex Race Officials.
