

2026 World Wide Technology Raceway Dragstrip Rulebook

(Please Note: All 2026 NHRA Safety Requirements
Supersede this book)

These Rules are designed to facilitate the orderly conduct of racing events and to establish standards for such events. By entering and participating in an event, participants are deemed to understand and accept these rules. NO EXPRESS OR IMPLIED WARRANTY OF SAFETY SHALL RESULT FROM PUBLICATION OF THESE RULES OR COMPLIANCE WITH THESE RULES. They are intended as a guide for conduct of the sport and are in no way a guarantee against injury or death to a participant, crew member or official. These rules may be changed or amended from time to time by the management of the raceway. These are general guidelines for World Wide Technology Raceway in Madison, Illinois. Please check your class rules for any class specific amendments. Please refer to the NHRA Rulebook for complete rules listings. Any NHRA Safety Rules will supersede the rules in this book. For rules clarification, email brad.cannon@wwtraceway.com or visit www.nhraracer.com.

General Policies

- **Radio Station: 106.7 FM**
- **Tech Inspection:**
 - If you purchase in advance via the Pit Pay App with your “Event Registration”, this is also your tech card for the event. All NHRA Self-Tech rules apply, as found in the 2025 NHRA Rule Book. You will not receive a paper tech card or need to proceed to the tech lanes, once you fill this out, you are good to go (except for Midnight Madness events).
 - Please follow daily announcements and signs about where to proceed for tech inspection.
 - Please have your tech card fully filled out prior to getting to the front of the line to expedite the tech process.
 - All vehicles are required to park in the pits.
 - Unload your vehicle and report to tech inspection with all safety equipment, clothing and accessories required to race. If you have an ETI, please follow those instructions. Please completely fill out your tech card and be prepared to show your NHRA license if applicable. Motorcycles, this includes bringing your Leathers to tech.
 - After passing inspection you may enter the lanes if the lanes are open for your class.
- **Double Entry:**
 - All forms of double entries are permitted, see points section for how points will be handled.
 - Please be aware, no class will wait for driver changes or extra cool down time for multiple class entries.
 - Racers are permitted to drive two different cars.
 - Car must conform to ALL rules in each class.
 - Any electronics devices must be clearly disabled if competing in both an electronic and non-electronic class
- **Buy Backs (Bracket Program and World Wide Technology Raceway Events ONLY):**
 - Buybacks will be posted with the event structure.
 - Once racer has bought back, he or she should return to class lanes when called.
 - All competitors will return to the lanes when round 2 is called (1st round winners and those who bought back)
 - A driver who missed for first round must purchase both an entry and buy back in order to join round 2 of competition.
 - Buy back competitors will receive points only for rounds won. (i.e. they will receive 10 points less than a 1st round winner that lost the same round as them)

- WWT Raceway reserves the right to cancel buybacks at any event at their discretion.
- Buy backs for Promoter Events will be at the decision of the event promoter.
- **For Super Pro Bike and Street Bike ET ONLY**, we will be using the card system for all pairings. Class will be called to three lanes. Staging official will go through each lane presenting three cards to draw. Rider draws card and whatever number is drawn, is the lane the rider will be paired with. Lanes will be assigned as they sit, unless card drawn is in the same lane, in which case, the rider who drew card gets lane choice. For buyback rounds, buybacks will be called to a separate set of lanes and paired separately until cannot.
- **Time Slips:**
 - ALL TIME SLIPS WILL BE DIGITAL. Please download the [WWTR Slips App](#) from DynoGeeks on your Apple or android device. The App is free on the app store. Paper time slips will no longer be issued, and the time slip booth no longer exists. The app is how you will find all your timeslips.
- **Facility Entry:** (only applies to WWT Raceway promoted events)
 - It is recommended all participants pre-purchase their race entry into the venue (via the Pit Pay app). Crew members who need restricted area access should purchase their credentials via Pit Pay app. Crew members or spectators who do not require restricted area access may purchase in advance via TIXR.
 - Pit Pay app usage will get expedited entry into the facility at most events. Certain events may also allow for extended pit access, see specific details on those events as listed.
- **Oil Down Rule:**
 - DIAPERS ARE HIGHLY RECOMMENDED ON ALL CARS! REQUIRED, AS PER NHRA 2025 RULEBOOK. To expedite the program, any car/bike leaving oil/fluids requiring equipment to be used, or causes longer than a 5-minute cleanup, may be asked to leave. Repeat offenders who leak or slow down the program, due to having to check the track, may be asked to leave. This is solely at the discretion of the Race Director. All decisions are final.

STAGING, PAIRINGS, BYE RUNS & BURNOUTS

- **Class Calls:**
 - All classes will be called to the lanes by the track announcer and WhatsApp
 - Use this link to join appropriate group:
<https://chat.whatsapp.com/InJez4MKsagGXoF2rd9BKe>
 - Listen to the radio station, 106.7 FM
- **Bye Runs:**
 - Bye runs are determined by best reaction time in the previous round. For 1st Round, bye run will be determined by best reaction time in the last time trial round.
 - Bye Run will be selected and pulled aside. If class is odd paired at end, racer will fill in pair.
 - If the bye run is not used, it WILL carry to next round (given the person holding the potential bye won), up until the ladder round. Driver pulled for Bye will fill in

the odd position at end of class. Only a ladder bye has the option to choose if they want to run at the beginning or end of the round.

- Entries can get only one bye per event unless all cars remaining have had a bye.
 - It is possible for an entry to get both a “random” bye and a Ladder bye, even if all other competitors have NOT received a bye run. The Ladder bye is determined by the computer and cannot be changed.
- Competition bye runs are awarded when your opponent is unable to race. This occurs only after you have been paired at the FRONT of the Staging Lanes.
 - Competition byes (when a competitor does not make the call) are still eligible for regular bye runs.
- **Ladder:**
 - Classes will be ladderered with 8 or fewer cars remaining, based on reaction time from the previous round.
 - Lane Choice on the ladder will be determined by better reaction time in the previous round.
 - Exception: Super Pro Bike, Street Bike ET, Junior Dragster Thunder, Junior Dragster Lightning will be ladderered starting round 3, regardless of car count remaining.
- **Staging Lanes & Pairings:**
 - Never block the entrance of staging with your race car, trailer or pit vehicle.
 - Please stay with your car at all times while in the staging lanes. This staging lane & pairing policy applies to all classes
 - Once you have selected a lane to run in (commit point is the cones in rear of staging), you cannot switch lanes or move in front of, or behind a racer for any reason.
 - This is to keep cat and mouse games to minimum.
 - Once the bye run is pulled, cars will be paired side-by-side.
 - Please pull up in the lanes and do NOT hang back. If you hang back and refuse to move up at direction of a Staging Official, it will be assumed you are broke and your competitor will be given a competition bye.
 - If we run out of cars in one lane, then they will be paired front to back with lane choice going to the front car in line.
 - Officials will make every effort to not send cars until a class is complete in staging lanes
 - IF someone shows up after single file pairing has begun, they MUST go to the back of the single file line.
 - Failure to listen to staging officials if told to move lanes will result in disqualification.
 - Inability to run, once paired, results in a competition broke bye. Pairing is designated at the cross walk at the front of the 8 lanes. Any breakage beyond this point will lead to a broke bye in eliminations.
 - As you pull under the bridge to the ready line, make sure you remain paired. It is impossible for the tower to determine who is paired until you are near the ready line.
 - In the event you reach the ready line and are no longer paired correctly, grab the attention of the Ready Line Official and tell them you are not paired correctly so the issue can be resolved.
 - If you pass the ready line, it is a race - there will be no re-runs for wrong pairings, even if both drivers agree.
 - All Dial-Ins MUST be on the car by the crossover and cannot be changed after that point

(unless allowed by the Race Director)

- **Driver Readiness:**
 - The driver and vehicle must both be ready to fire and race when instructed to do so by a race official. If the vehicle or driver is not “ready” the official will give the driver thirty seconds to fire the vehicle. If the vehicle is unable to fire, a competition single will be awarded to the “other” driver and vehicle.
- **Burnouts:**
 - Burnouts can be performed by any car.
 - Cars with slicks must pull through the water box.
 - Cars with street tires may go around the water box.
 - Crew members are prohibited from holding onto, or touching a car while the car is performing a burnout.
- **Staging:**
 - When the first driver has fully staged and the second driver has pre-staged, the second driver has a set amount of time (see AutoStart Settings for your class) to fully stage or he will be disqualified in a foul.
 - In another situation, if a driver is ready to stage or has already staged and the second driver is having problems (i.e. mechanical failure, etc.), the starter will put the car on the clock (pushbacks and assistance from crew are permitted if done within reasonable time as deemed by the starter).
 - If the car still cannot stage after that time, the first driver will receive a single run.
 - By staging your vehicle, you have signaled to track officials you find all conditions acceptable and are ready to race. In addition to the situations described in the paragraphs above (pairings, dial-ins, and deep-staging), this includes any problems (i.e., overheating, cold tires, etc.) resulting from delays on the track. If there is a problem, DO NOT STAGE. Explain your problem to a starting line official.
 - Courtesy staging is not required and is not a disqualifiable issue.
- **Deep Staging:**
 - Deep staging is at your own risk. Failure for you to deep stage (or a “quick-tree”) is NOT grounds for protest or a re-run.
 - You should be deep-staged before your opponent is staged.
 - THE STARTER WILL NOT WAIT OR “HOLD THE TREE” FOR YOU, EVEN IF DEEP IS WRITTEN ON THE CAR.
 - NEW FOR 2025, THIS WILL APPLY TO ALL CLASSES, INCLUDING JUNIOR DRAGSTERS, HIGH SCHOOL, ETC. THE STARTER WILL NOT HOLD FOR ANY CLASS, IF YOU WANT TO GO DEEP, THIS IS 100% AT THE DRIVER OWN RISK.
 - I.E. DEEP STAGING IS ALLOWED, BUT NOT HONORED.
 - Deep stages ARE NOT guaranteed AT ANY EVENT. The driver accepts all responsibility for when deep staging.
 - Since deep staging is permitted and Autostart is used, courtesy staging is not required and is not a disqualifiable issue.
- **Race Track Configuration:**
 - World Wide Technology Raceway is mainly a right exit track.
 - Note: Several select larger events may offer a Left Hand turnoff if competitors are pitted on the West Side of the facility. Please check the turnout situation at the

- sand trap BEFORE you run, if you want to turn Left to make sure that it is open.
 - There are three exits
 - First: (always closed, except for Jr. Dragsters and Emergency Situations)
 - Second: (always open) mid-shut down area, where fire truck and ambulance sit.
 - Third: End of racetrack, just before sand trap.
 - Left-turn available at SELECT EVENTS ONLY
 - When exiting the track, right lane ALWAYS has right-of-way.
 - It is the driver's responsibility to know where their opponent is before turning.
 - If in trouble, do not try to make turn off at a high rate of speed. Take the sand trap – it's dirty, but avoids putting yourself and others at risk.
- **Round Robin: (once we get into later rounds of competition)**
 - For most races, competitors will return to their pits after the first, second and third round of eliminations and wait to be called back to the lanes.
 - It is essential that racers report back to the lanes immediately and cool down there once in Round Robin
 - Once in "Round Robin" Format, you are expected to be in the lanes and ready to run within 15 minutes of the last car from your class previous round going down the track, or we will assume you are broke and may run without you.
 - Please listen to the announcer/WhatsApp for instructions and/or variations.
 - If you hear us calling for "All Winners", this means we are at the Round Robin point.
 - Racers who miss their round will be eliminated.
 - Reruns or advancement will not be granted for missed lane calls or rounds.
- **Time Trials:**
 - Please pay attention to what lane(s) your class is called to. If multiple pairs of lanes are called, please follow the directions of the back of staging official.
 - When we reach the end of a session where we have a single file row, you will be asked to pair up front to back (1st car has lane choice) and failure to move as directed by track officials constitutes immediate forfeiture of time run. **If lane choice is important, do not end up near the end of a session.**
 - To minimize the amount of time spent waiting in the lanes, time runs will be run in "class" sessions.
 - Each class will be called to the lanes over the P.A./WhatsApp
 - Only one time run is allowed per "class" session.
 - The computer has been programmed to flag cars that attempt more than one run per session.

Break & Rainout Policy

- **Track Credit Policy:**
 - If you break before first round of eliminations, a track credit will be issued at the tower.
 - The credit will be the amount of the entry less the cost of that event's crew admission.
 - Track credits will only be issued at Test & Tune events if the vehicle breaks prior to entering the water box for their first-time trial. Credit will be the value of car & driver entry, less that day's crew admission.
 - Credits must be claimed in Race Control by the end of the event, they WILL NOT be mailed after the event. Break Credits are non-transferable.

- To claim the break credit at a future event, you MUST present and surrender the form that you were issued in Race Control. If you lose the form, it becomes invalid.
- ANY competitor who suffers breakage causing down time on track and/or cleanup (i.e. anything requiring more than a tow off track) will NOT receive any credit under any circumstances.
- **Rain-Out Policy (Race Event):**
 - NO REFUNDS
 - In the event of rain during an event, eliminations will not be continued to another day. Points will be awarded per class through the last FULLY completed round.
 - An event is defined as “COMPLETE” at the conclusion of first round (not including buy back).
 - If first round is not complete, a “Rain Out” Credit will be issued. ALL participants will need to listen to announcements and come to Race Control to receive a voucher for future event. Vouchers will be good for 1 year from date issued, and it is the racers responsibility to treat as cash and keep track of. This credit must be presented and surrendered at a future event to receive the credit. If the voucher is lost, the credit is not valid. Credit only valid for entry into the same class and event that you were entered into.
 - Crew/Spectators will also need to come follow PA announcements and come to Race Control in order to receive a voucher, good for 1 year. Voucher will only be issued on events deemed “non-complete”
 - JUST KEEPING YOUR WRISTBAND IS NOT ENOUGH! YOU MUST HAVE THE VOUCHER TICKET TO GET CREDIT TO FUTURE EVENT.
- **Rain-Out Policy (Test Event)**
 - NO REFUNDS
 - If an event is canceled for any reason, it will be deemed complete after 2 hours of run time, OR 50% of the scheduled run time, whichever is shorter.
 - If a competitor has had 2 or more runs (regardless of run time, NO Credit will be issued)
 - In the event that a test is not considered complete, credit amount will be issued based upon % of run time (or number of runs that a competitor made)
 - 25-50% (or 1 pass) – half credit
 - <25% (or 0 pass) – full credit
 - ALL participants will be asked to come to Race Control to receive a voucher for future event. Vouchers will be good for 1 year from date issued, and it is the racers responsibility to treat as cash and keep track of. This credit must be presented and surrendered at a future event to receive the credit. If the voucher is lost, the credit is not valid.
 - Crew/Spectators will also need to come to Race Control to receive a voucher, good for 1 year. Voucher will only be issued on events deemed “non-complete”
 - YOU MUST HAVE THE VOUCHER TICKET TO GET CREDIT TO FUTURE EVENT. WRISTBAND WILL NOT BE NECESSARY.
 - This policy does not apply for mechanical problems or disqualifications. No credit will be given for car breakage once a car has attempted a burnout in the water box.
- **Please note: Events by outside promoters and NHRA National events do not apply to this policy.**

CONDUCT OF DRIVERS & PIT CREW

- **Restricted Areas:**
 - Due to insurance regulations, access to certain areas of the facility is restricted.
 - These areas include staging lanes, behind and inside the burn-out box, the starting line, the track itself, the return road, and in front of the drag tower on golf carts.
 - All drivers and crew are required to sign a waiver in the presence of a track official or comparable digital waiver process.
 - At that time, all driver or crew members will be issued a wristband that must be put on the wrist in the presence of a track official
 - Crew wristbands may be limited per team if WWT Raceway Officials deem you are requesting an excessive amount.
 - **No one under the age of 16 years is permitted in any restricted area. This includes in front of the tower on golf carts.**
 - Absolutely no one will be allowed in restricted areas without a wristband.
 - An exception is permitted with minors during junior dragsters; however, minors must always remain in or on tow vehicle.
- **Misconduct:**
 - At all times, drivers are responsible for the behavior of their crew members, families, children, pets. Misconduct or recklessness is grounds for immediate disqualification.
- **Pit Vehicles (Golf Carts, Scooters, Pit Bikes, Etc):**
 - Golf Carts, motorized pit bikes, mini-bikes, and ATV's are ONLY permitted to be used for racer needs in the pit area to tow race cars.
 - They may also be used to assist in the mobility of handicap persons.
 - ALL OPERATORS MUST HAVE A VALID STATE DRIVERS LICENSE AS WELL AS THEIR CAR NUMBER PROMINENTLY DISPLAYED ON THE PIT VEHICLE.
 - "Joy riding" or unsafe operation anywhere on the premises by you or your crew members is grounds for immediate disqualification.
 - Minors (without a valid state-issued driver's license) are not permitted to operate pit vehicles of any kind.
 - These safety regulations are strongly enforced, as they are not just for the protection of your property and crew but for the protection of others as well.
 - Failure to comply with these rules may result in immediate disqualification.
 - If a minor is caught driving a pit vehicle or an adult is caught driving in a reckless manner:
 - 1st offense, vehicle will be confiscated.
 - 2nd offense, you will be asked to leave the park with no reimbursement and all points for the weekend will be forfeited.
- **Speed Limit and/or Reckless Endangerment:**
 - The speed limit for all vehicles on the premises is 15 mph.
 - Any vehicle judged to be operated in an unsafe manner by track officials is eligible to have their team disqualified for the day on the first offense with no refund.
 - Repeat offenders may result in a permanent ban from the facility.
 - Burnouts anywhere but the starting line will not be tolerated in any way and any driver caught doing so (even the first offense) is subject to immediate eviction from the property

with a permanent ban from World Wide Technology Raceway.

- **Tow Vehicles:**
 - Tow vehicles are allowed in Super Pro, Super Pro Bike and Junior Dragsters only.
 - No tow vehicles are permitted to be on the racetrack surface. All tow vehicles must travel down the return road.
 - All crew members must be in the enclosed part of the vehicle and have restricted area wristbands.
 - Absolutely no one is allowed on tail gate of a pickup. If a passenger is in truck bed, they must sit on bed floor.
- **Children:**
 - Parents are cautioned to keep children under supervision in the immediate area of their pit space.
 - The pit area is not an appropriate place for children to roam unattended, so please keep them in your sight and out of harm's way.
 - The pit area is teeming with all kinds of motorized and pedestrian traffic and a driver's ability to see is often restricted. Allowing minors into the pits is a privilege, not a right.
 - Parents who let minor children roam the pits unattended may be asked to leave the pit area.
 - You must have a driver's license to operate anything motorized. Roller skates, skateboards, radio-controlled vehicles and similar toys are not permitted whatsoever.
- **Alcohol and Drug Policy:**
 - No glass bottles are permitted anywhere on the World Wide Technology Raceway property.
 - Absolutely no alcoholic beverages are allowed in any restricted area of the facility.
 - This includes the staging lanes, starting line, track and return road.
 - Any driver determined to be intoxicated or found with an alcoholic beverage or drugs in their possession while still in competition will be disqualified immediately.
 - Any person found to be operating any vehicle while in possession of alcohol or drugs may be disqualified and/or ejected from the premises.
 - As stated above, drivers are responsible for their crew members and if crew members consistently violate this rule, the driver may be disqualified.
 - It is to the advantage of the drivers to police themselves and their crew members.
 - If you ask someone to leave a restricted area due to alcohol or drug possession and they become belligerent, do not put yourself at risk. Please notify a track official.
 - Restricted Area Armbands must be surrendered for a day to purchase alcohol.
 - The exception is a multi-day event, you must show ID to the bar tender, and they will inform race control to ensure that you are done racing.
- **Waste Oil / Hazmat:**
 - Collection centers are provided throughout the pits. Waste oil must be dumped in these bins. Contaminated oil (contamination is any non-pure race oil, i.e., brake clean, carburetor cleaner, anti-freeze, etc...) must be taken with you when you leave. Safety-Kleen provides collection as a courtesy, please respect this service.
 - Please use the labeled metal bins around the oil dumps for filters, antifreeze, etc.
 - Do not leave anything on property that is not pure race oil.

- **Facility power:**
 - Competitors are not permitted to use electrical outlets without the permission of the Drag Strip Manager. Approval must be requested in advance. DO NOT expect power to be available. We suggest buying a generator. Anyone tampering with a World Wide Technology Raceway outlet or power supply will be immediately ejected and face suspension.
- **Weekend Event Policy:**
 - For those planning to stay for the weekend in your RVs and trailer living quarters, all crew members will be charged for the whole weekend when they come in the gate. If they are not staying the whole weekend we will refund their tickets as they leave. Please be sure they keep their tickets as proof of purchase.
 - The same applies for racers wishing to do early drop-offs of trailers while we have events taking place. You will be charged for the event taking place as well as the remaining events for the weekend.
- **After-Hours Policy:**
 - Quiet hours will go into effect 90 minutes after the final car goes down the track in competition. For events featuring overnight camping, this means that everyone must return to their respective pit area and all engines must be quiet 90 minutes after the conclusion of racing.
 - On the final day of racing for the weekend, all occupants must vacate the pit area 90 minutes following the completion of racing. Track security will do a final sweep 60 minutes after the conclusion of racing as a friendly reminder that the event has ended. The Madison, Illinois Police Department will do a final pit sweep 90 minutes after the event and secure the facility.
 - Facility secure times for Test 'n' Tunes and Midnight Madness events is 45 minutes following the completion of racing

COMPULINK CROSSTALK & TruSTART & AUTOSTART

- **Compulink CrossTalk:**
 - CrossTalk allows the tree to be fully shielded (all ambers) while giving several benefits. All racers have their own “clean” tree, with all ambers including the top amber facing directly towards them. CrossTalk functions in eliminations by firing the top amber in both lanes at the same time. This allows both cars a direct “hit” on the tree. The tree of the slower lane will continue counting down to the second and third amber as normal. The faster cars top amber will remain lit until the time comes for the second and third amber in that lane to cycle down. Note that CrossTalk function would only be run in “Super” classes in eliminations only. Footbrake classes would have a normal functioning tree.
 - A driver (if he is the quickest of the pair) may cancel the CrossTalk function by including the letter “N” after the last digit of their dial-in.
 - For example, a dial-in of 4.85N would cancel CrossTalk for that pair of cars if the 4.85 was the fastest dial-in. If you have the letter “N” after your dial to indicate you do not want Crosstalk activated in your lane, make sure you see the dash in front of your dial-in on the scoreboards before

you stage.

- If there is no dash in front of your dial-in on the scoreboards, then the clock operator did not see the “N” after your dial or you have it placed elsewhere on your window. In this case, DO NOT STAGE. Simply get the starter’s attention and point to the “N” on your window; he will call the tower by radio and have it corrected. The “N” is part of your dial-in. There will be NO Re-Run for a missed “N”. If it is not there, do not stage.
- **Compulink TruSTART:**
 - Compulink TruSTART will be used in ALL bracket classes: Super Pro, Pro, Sportsman, Super Pro Bike, Jr. Dragsters, High School, and Jr. Street. TruSTART will be used at ALL WWT Raceway produced events and is highly encouraged to be used by all promoters at rentals (please check with specific event promoter if it is NOT a WWT Raceway event [i.e. Junior Points Series, Bracket Points Series, etc.]).
 - TruSTART will be used at ALL World Wide Technology Raceway events (in all applicable classes) unless specifically requested to NOT be used by the event promoter or their rules. Please consult with Event Promoters to find their policy on TruSTART
 - Compulink TruSTART will display RED Lights for both competitors in Time Trials. In eliminations, the tree will always go GREEN when the first car leaves. The first leaving car will ALWAYS count down Amber, Amber, Amber, Green regardless of the actual status in order to hide a possible Red Light. After the 2nd car has left, the True GREEN/RED status of both cars will be displayed.
 - In Eliminations, the slower car will always count down Amber, Amber, Amber, Green in order to hide a possible Red Light to the faster car. When the faster car leaves, both sides of the tree will then display the actual Green/Red status of each lane. If two Red lights were to occur, then the LESSER of the two Red Lights will receive the instant WIN Light.
- **Compulink AutoStart:**
 - The AutoStart system is used at World Wide Technology Raceway in all classes at all events.
 - This system starts the tree automatically when the computer senses two fully staged vehicles so the starter can concentrate more on the track and conditions of the race.
 - Here's how it works: when the system sees both cars pre-staged and ONE of the cars staged, it starts a timer (actual length of timer is class specific, please inquire with the tower or go to the class rules and information). If the second car does not enter the staging beams within the timer's parameters, a red light is activated for that car. This red light will NOT be negotiated under any circumstance. Remember, the system needs to see three lights before it starts the timer - two pre-stages and a stage.
 - Don't try to burn down your opponent.
 - E.T. Bracket settings are the same as the NHRA Division 3 Finals.

DIAL-INS

- **Dial-Ins:**
 - Cars are required to display dial-ins on all 4 sides of the car. If you do not have windows you may use a scoop or some other part of the car on both sides that is visible from the tower when you are in the water box. Please Note: We sit above and to the right you when looking for your dial in. Please make sure that both your number and your dial-in are clearly displayed. We will make every attempt to clarify what you have written but please remember that visibility from the tower is poor at times. Dial-in must be written out to the hundredth of a second (including zeros) by the crossover.
 - You must have your dial in set when you cross the crossover. There will be a sign stating “cannot change dial past this point.”
 - Failure to follow these rules is grounds for disqualification.
 - The only exception to this is after a track clean-up or long delay, as the pair in the water box may change their dial at the race director’s discretion.
- **Dial-In on Scoreboards:**
 - It is the responsibility of the driver to verify both his/her own and opponent’s dial-in is correct.
 - The first opportunity to check dial-ins, is the dial-in boards located in front of the waterbox. Dial-Ins should display when the pair on the starting line has pre-staged. If your dial-in is incorrect, please notify the waterbox attendant immediately.
 - If you did not verify your dial-in in the waterbox, verify your dial-in is correct on the scoreboards before pre-staging. The dial-in on the scoreboard is final and once you pre-stage, you have accepted whatever is on the scoreboard.
 - If you have a “N” for NO Cross-Talk, it will appear as follows:
 - Dial-In Board: 8.90N will display as 8.90n
 - Scoreboard: 8.90N will display as -8.90
 - Absolutely no re-runs for wrong dial-ins, even if both drivers agree. Once pre-staged starter assumes they are correct.

ELECTRONICS & PROTEST PROCEDURES

- **Electronics per class:**
 - If a driver is caught using electronics (delay boxes, trans brakes, air shifters, two steps, 4 wheel line locks, etc.) in a class that does not allow them during eliminations, they will be disqualified immediately without refund.
 - Additionally, if the driver is a point’s member, they will lose all points for the season.
- **Protesting:**
 - If you see a delay box or anything illegal, bring it to an Official’s attention and the situation will be investigated without a protest charge.
 - However, you can officially protest another racer for a protest fee of \$200 for Super Pro / \$100 for all other classes.
 - To do this, bring the funds to the Race Director and state which driver and what specific device you are protesting and why.
 - That driver will be escorted to a restricted inspection area.
 - All inspections will be under the direct supervision of the Race Director.

- If no illegal device is found, then 75% of the protest fee will go to the protested driver.
 - If the driver is found illegal, then 75% of the protest fee will be returned to protester and the illegal driver will be disqualified and will lose all season points.
 - Further disciplinary action can be taken at the sole discretion of the Race Director.
- **Race Director Decisions:**
 - Every effort has been made by World Wide Technology Raceway to promote fair and honest racing for all participants with the best timing equipment available in the industry. In the unlikely event of an electronic or equipment malfunction, the Race Director will decide the outcome of the race.
 - The Race Director's decision is final and entry in the competition is acknowledgment that the participant accepts this ruling without recourse.

POINTS PROGRAM (how points are earned):

- **Points Membership:**
 - See wwtraceway.com/racers for specifics. Points will count from the day you sign up going forward.
- **Double Entries:**
 - If a racer has 2 points entries, it is their responsibility to have 2 separate car #'s (we recommend ADD X or DROP 1st Number). This is the racer's responsibility to track. If the racer runs with a wrong car #, they must immediately (prior to class being called for NEXT round of eliminations) tell officials in Race Control, or points will follow the lower earned entry.
 - If a racer has 2 entries, but only 1 points entry, points will follow the car number used when on membership signup.
 - Any racer caught trying to manipulate points between entries, at the sole discretion of track officials, will receive the lower points accumulated between the two entries.
- **Tie Breakers:**
 - To eliminate the need for runoffs between racers that are tied in points, tie breakers will be used to determine higher position. This system will ensure that all classes have a definitive Top 10 with no ties in points at the end of the year.
 - Tie breaker system will also be used to eliminate any ties in qualifying for the ET Finals.
 - 1st – Driver with the most points without throw-outs
 - 2nd - Driver with most races attended (Show Points)
 - 3rd - Driver with the MOST POINTS RACES WON during the current season
 - 4th - Driver with the MOST POINTS RACE RUNNER-UPS during the current season
 - 5th - Driver with the MOST SEMI-FINAL ROUND APPEARANCES in points races during the current season
 - 6th - Driver with fewest buyback rounds
 - 7th – Date signed up for points
 - 8th – Coin Flip or gentleman's agreement

- **Points Awarded (for ALL World Wide Technology Raceway Points Programs):**
 - Points will be awarded through completion of season for points championship.
 - Points will be awarded to ALL competitors of an event. In the event a driver not able to make first round, they will receive 10 attendance points (the purchase of a tech card without the car present to receive the 10 attendance points is prohibited).
 - Points will be awarded for each event as follows (based off NHRA Standard):

# of Rounds	1 st Round Loser	2 nd round Loser	3 rd Round Loser	4 th Round Loser	5 th Round Loser	6 th Round Loser	7 th Round Loser	R/U	Win
2 or Less	33							44	55
3	32	43						54	65
4	31	42	53					64	75
5	30	41	52	63				74	85
6	30	40	51	62	73			84	95
7	30	40	50	61	72	83		94	105
8	30	40	50	60	71	82	93	104	115
9	30	40	50	60	70	81	92 / 103	114	125

- If you lose 1st round and buyback, you will receive 10 less points than listed in the table above. (i.e. a 5 round race, 4th Round Loser who bought back will receive 53 points [10 less than 63])
 - 9 rounds or more, points will continue to increase in the fashion listed above.
 - Buyback points awarded only for ROUNDS Won.
- In the event of breakage prior to first round, you can receive a credit (no points will be earned).
 - You may also waive the credit and receive 30 points (10 tech plus 20 first round). You will be treated as a 1st Round Loser.
 - If you cannot run and wish to receive the 30 breakage points, you must notify Race Control before the tower closes for the day.

Points & Purse Policy for Weather Shortened Events

- An event is defined as “COMPLETED” at the conclusion of first round (not including buy back).
 - If a class is not fully complete when the event is canceled, the round will be treated as if it never happened.
 - If the round is complete, points and payouts will be issued up through the completed round.
 - Purses are then divided between all active drivers still in competition. A check will be mailed the Tuesday following the event, given a valid W-9 MUST be on file.
 - In the event a race is shortened from 1/4-mile to 1/8-mile (Bikes and Sportsman) for safety concerns or weather-related issues, points will still be counted the same.

PAYOUT/CONTINGENCY

- **Payout Guarantee:**
 - Payout is guaranteed to posted amount.
 - Payout is posted in the Bracket Series. Specialty Events or Track Rentals payouts, contact promoter or see special event page
 - To receive payout, competitor **MUST** win a round of competition to receive posted payout. No payout will be made to a competitor without winning at least 1 round of competition.
- WWT Raceway requires a valid W-9 form to be on file for the calendar year prior to sending out any payout check. It is the racer's responsibility to turn in a valid W-9.
- Payouts will be held until the end of the calendar year, after that they will be forfeited. It is the racer's responsibility to contact WWT Raceway with proper information.
- For any payout related questions or issues, please contact Brad via email at bcannon@wwtraceway.com
- **Class Count Cut Offs:**
 - Car count is calculated by how many cars compete in first round.
- **Contingency Connection:**
 - You must run the required decals.

Class Specific Rules

Please note: For bracket classes, we will follow rules as listed on www.nhradiv3.com, in accordance to the NHRA Summit ET Finals Rules. Any rule changes throughout the season will supersede this rulebook. Please note: Helmets are required in any vehicle faster than 13.99 (1/8th equivalent). The helmet must meet NHRA standards as set in their rulebook, must be SNELL SA/M2015, or newer or SFI equivalent. See NHRA rules for specific permitted helmets. TRUstart will be used in all classes (and at the 2025 NHRA D3 ET Finals).

SUPER PRO (3.66-7.75) 1/8-MILE (NOTE: D3 low et break 4.30, down to 3.66 permitted at WWT Raceway)

A. See 2025 NHRA Rule Book for any class rules NOT listed in the division rules

1. Computer: Prohibited unless stock vehicle by new car manufacturer. See general regulations 9:1
2. Data recorders: Permitted. See general regulations 9:2 & 9:10.
