AUTOMOTIVE INDUSTRY EVENTS ARE OUR SPECIALTY:

World Wide Technology Raceway is the only venue in the nation to host NASCAR, Indycar and NHRA. It's also the perfect venue to launch a new vehicle program, sales promotions, commercial productions and customer appreciation events. The World Wide Technology Raceway staff and facility are capable of creating the perfect event.

With a variety of racing surfaces, WWT Raceway is specialized to host your OEM training, arrive and drive events, clubs, non-profit organizations and corporate experiences.

"WWT provides top-tier service that is unmatched compared to other venues. The raceway's modern and spacious facilities provide the space for us to host our Driver Meetings, classroom sessions, and lunch. The raceway's team is a shining example of their commitment to our satisfaction."

- Porsche Club St. Louis

"We had a team engagement at Gateway Kartplex, it was a BLAST! The staff took care of everything, the process from check-in to getting on the track was so easy. They adjusted the speed for those of us that were new to the track. Our team talked about the event for days. I can't say enough good things about the track and staff. We had about 100 racers and everything ran smoothly. They even arranged Sugarfire food truck to serve at the track. We will be booking this again for our team!"

- Calliber Collision St. Louis

CATERING

WWT Raceway's facility and our on-site catering team can custom design an experience ranging from as small as a team lunch meeting in one of our luxury suites to a first class dining experience in the all-new Gateway Garage Experience.
